

Update the Asterisk version

Update Asterisk to the release 11.25.1

Important

All the call center's operations must be stopped before start the update procedure.

The Asterisk update takes approximately 15 - 30 min (it might take more time if you have a slow network connection)

Check the current Asterisk release:

```
asterisk -rx "core show version"
```

```
Asterisk 11.16.0 built by root @ XSHUTTLE-TRAI on a x86_64 running Linux on 2015-06-03 12:33:42 UTC
```

Download the update script:

```
wget https://provisioning.xcally.com/files/packages/update_asterisk.sh -O update_asterisk.sh
```

Download succeeded

```
